REPORT OF THE BOARD OF SELECTMEN

The Board of Selectmen respectfully submits an annual report to the citizens of Easton.

In April, after the re-election of John J. Kent and William Morgan, the Board was reorganized with Leo Harlow elected Chairman and John Kent elected Clerk.

The Board held approximately forty meetings during the year. We settled contracts with all departments in an amicable fashion. In September the Special Town Meeting appointed eight new firemen and five new policemen over the Board's recommendations. This action will now force an ever increasing percentage of the Town budget to be spent on Police and Fire personnel at the expense of the other municipal departments. The full impact of this action can be noted on later pages of this Town Report which outlines the FY 88 budget requests of the Police and Fire Departments.

The Board also held hearings on many licenses, including liquor, auto dealer and others.

The Board continues to monitor the growth of the town and its effect on your services. We hope to occupy and utilize the new fire station in February of 1987. Our Water Division has constructed a new water tower and has reduced our unmetered water to less than 8%. All divisions are to be commended for their hard work and cooperation, particularly the Highway Division during this severe winter.

The Board works diligently to preserve the quality of life of its citizens and commends all those who contribute time and volunteer work as members of committees and other boards.

We also appreciate and thank the Town Administrator, Representative William Vernon and Senator John Parker for their efforts on our behalf.

Respectfully submitted,

Leo R. Harlow

John J. Kent

James D. Mullen, Jr.

William E. Morgan

Richard B. Lane

BOARD OF SELECTMEN

REPORT OF THE TOWN ADMINISTRATOR

I am pleased to submit my fourth annual report as Easton's Town Administrator.

This office continued in 1986 to discharge its duties in accordance with the Town By-Laws, Town Charter and by direction of the Board of Selectmen. Primary duties are in the area of town finances, town operations and administration and future planning.

In my capacity as Town Administrator, I saw three primary areas of concern in 1986 which will continue to be with the Town during 1987 and beyond. These areas deal with solid and hazardous waste disposal, Town finances and the provision of services to the Townspeople.

I have, with the assistance of the Department of Public Works and Board of Health, been seeking a temporary resolution to the solid waste disposal needs of the Town. Finally, after two years the Town was able to submit in June of 1986 an expansion plan for the sanitary landfill located off of Prospect Street.

Approval by DEQE of this plan has been deferred until an assessment report can be completed concerning the issue of groundwater quality in the area. We expect that once this report has been received by DEQE, the Town's expansion request will be approved which will allow the Town additional time to examine a more permanent solution to the solid waste disposal needs of the Town.

Along these lines, the Annual Town Meeting will be asked to approve the necessary funding to provide for the interim capping of the landfill and to provide funds for the vertical expansion of the site.

The finances of the Town continue to be very complex and subject to change, both for the good and detriment of the taxpayer and resident of the Town. Spending in the Town as a whole continues to increase at a rapid and alarming pace. Fortunately, the Commonwealth has kept pace with ever increasing levels of state aid to allow a balanced budget to be accomplished without wholesale reductions and layoffs of personnel and elimination of programs and services.

FY 88 and beyond will continue to see rapid increases in spending and hopefully equal levels of increases from the Commonwealth. Every indication, however, informs us that the Commonwealth is not going to be able to continue its rapid increases as in the past and the taxpayer will be responsible for shouldering an ever increasing load of any spending increases.

For this reason this office recommended against many of the articles approved at the Fall 1986 Special Town Meeting. Many of the articles, but particularly the police and fire personnel articles, will have a profound impact on

the financial picture of the Town for the next several years. I must note that it is personnel costs that are the primary reason for any rapid increases in overall Town spending.

In the area of long term planning, this office is developing a three year building capitalization program which will see proposals forwarded to the Townspeople for the construction of an addition to the police station in 1987, the construction of a Town library in 1988 and the construction of an addition to the Town Offices in 1989.

In addition, this office will be preparing a capitalization program which will attempt to meet the roadway, drainage and sidewalk repair and restoration needs of the Town. Unlike the building projects discussed above, funding for such a program would come from current year funds as opposed to borrowing under an exemption to the constraints of "Proposition 2½."

This makes this program when designed to be most difficult to fund since first priority must go to daily and current operational expenses. However, the problems of the current condition of the public facilities must be addressed in some manner.

1987 will be an important year in the history of the Town as we continue to sort out a direction to be followed to meet many of the pressing needs of the Town, in addition to those areas described above. Long term plans must be prepared and implemented along the lines of conservative and responsible spending of Town resources to insure the greatest benefit is derived from all expenditures and that the highest level of services are provided to the taxpayers and citizens of the Town.

In closing, I wish to thank the Board of Selectmen for their continued support and assistance. I wish to thank all department and division heads, department personnel and the members of the various committees, commission and boards of the Town for their assistance and efforts on behalf of the Town of Easton. I particularly thank Mrs. Paulino for her day to day assistance.

Respectfully submitted,

Daniel J. Morgado
TOWN ADMINISTRATOR

REPORT OF THE EASTON SCHOOL COMMITTEE

The Easton School Committee is pleased to present the following report for 1986.

Mr. William Gloekler and Mr. Donald Anderson were re-elected for three-year terms. Mr. Gloekler was elected as Chairman and Mr. Anderson as Vice Chairman at the organizational meeting held in April. The Committee consists of Richard Hall, Robert Nisenbaum and Constance Pozzo.

Major emphasis during this past year was to continue the comprehensive curriculum revision innovation. We feel the standardization helped us in achieving scores above the state average in the Massachusetts Educational Assessment Program. We will continue our emphasis on the coordinated program of curriculum revision. We applaud the efforts of the teaching staff, administration and the Curriculum Coordinating Council for their conscientious attempt to achieve this goal.

Enrollment has leveled off as predicted; however, we are concerned with the building and growth in the Town of Easton. It is apparent that a few students can create an imbalance in class size. On the advice of the Administration, the School Committee initiated another first grade to lower class size. High student-teacher ratio is a major concern of the Easton School Committee in our elementary classrooms.

The School Committee approved the plan to move the Administration Offices to the second floor of the old Oliver Ames High School building known now as the Middle School. We turned back the Administration Building on Washington Street to the Town as the School Department had no further use for it.

While we are preparing this report, the School Committee is deeply involved in budget deliberations. As previously mentioned, the area of major concern is the high student-teacher ratio at the elementary level and the funding of our teachers' needs for equipment, textbooks and supplies. The School Committee feels that the salary provision for our staff puts us in an excellent position to maintain the quality of education that presently exists in Easton.

We, as a School Committee, are very proud to take part in approving the proposal for Project Opportunity, a wing to the high school to meet the educational demands for Special Needs students. This is an ambitious undertaking for those parents interested in Special Needs.

We had a number of retirements during this past year. These people have dedicated a major portion of professional tenure to the Easton School System. The dedication of all these retirees listed below helped make the system what it is today:

Kathleen Beale
Ruth Churchill
Jane Connelly
Vera Cruickshank
Patricia Ferrell
Helen Gardiner
William Hardin

Barbara Pace
Audrey Parrish
Walter Perry
Audrey Pritchard
Eleanor Sibley
Mary Waldron
Alan Weinberg

We have been fortunate to have the support of the community in our budget requests and look forward to a continuance of this effort.

We have just highlighted some of the activities the School Committee has been involved in for 1986. As a result of a highly competent staff, their resourcefulness and commitment to improving the quality of education is going forward. We applaud their efforts.

Due to the cooperation between the various town departments, we are able to perform our responsibilities and duties in a positive atmosphere. We have enjoyed representing you and look forward to your continued support. Thank you for your input throughout the year.

Respectfully submitted,

William J. Gloekler, Chairman
Donald E. Anderson, Vice Chairman
Richard E. Hall
Robert Nisenbaum
Constance Pozzo
EASTON SCHOOL COMMITTEE

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Easton School Committee
and the Citizens of Easton:

As Superintendent of Schools, I hereby submit my sixth report and the one hundredth and one in a series since the Town authorized a Superintendent of Schools. A report such as this is a partial summary and reflection of the accomplishments for the 1986 school year based on reports of the various administrators and departments.

School Enrollments

Projected enrollments in the Town of Easton have become very difficult. To some it would appear that we are going through a period of stability. However, there is evidence of a larger pre-school population, kindergarten—first grade population and special needs population. This is presenting some overcrowding problems. The School Committee, with the assistance of the Administration, is preparing some alternatives to alleviate some of the overcrowdedness at the elementary level. It only takes a few students at each grade level to create this situation, which we are continuing to monitor.

Curriculum

Under the leadership of Andrew Miller, Jr., Assistant Superintendent of Schools, the Curriculum Coordinating Council has reviewed revisions in the following curriculum areas: Business, English, Science, Social Studies, Art and Music.

The Elementary Handwriting Team is presently preparing a program that will be put in the curriculum at the elementary level upon School Committee approval.

Standardized mid-years/finals have proven to be an asset to validate and evaluate the curriculum revision. Easton's performance on the Massachusetts Educational Assessment Program, a tool to evaluate curriculum, indicated progress in those areas tested as Easton was above the state average. However, we need to continue our emphasis and strive to improve.

Special Needs

One of the most exciting things that has happened in my educational career is the development of Project Opportunity. This project, created by Special Needs parents in cooperation with Dr. William Simmons, Director of Special Services, will provide a new wing to Oliver Ames High School. It is an exciting pre-vocation program for those eligible Special Needs students. These parents, under the leadership of Patricia Dahl, supported by contractors such as Douglas King, Brian McLaughlin, Wayne Benson, Nick Mirrione, Al Endriunas, electrical unions, bricklayer unions, and individuals too numerous to mention, are making all of this possible for the Grand Opening in September 1987. Never

before has there been such community enthusiasm by tradespeople and contractors. We thank you.

The Special Needs Program services approximately 550 students in the Town of Easton and has become a model for other systems to follow.

Elementary

It has been an exciting time for elementary education. The PAL program has grown and developed into two (2) full sessions with additional staff. This is a self-supporting program that improves the readiness of the potential student. Mrs. Colleen Greene, Miss Sarah Gallahue and Dr. William Simmons organized an Early Childhood Advisory Council and have written a grant to implement a pre-kindergarten program for five year olds. They have been awarded planning money to continue the program.

A group of parents, supported by Miss Sarah Gallahue and Mrs. Susan Warren, attended a series of drug education classes sponsored by Pathways to Health and will begin to work in the classroom at Parkview and Moreau Hall Schools in the Spring.

The Officer Friendly Program, sponsored by Sears and the Easton Police Department and taught by Officer Dwayne Farrell, has been extremely successful in bringing the Police Department and students closer together in learning safety and citizenship.

The curriculum progress was evident through the Massachusetts Educational Assessment Program, as Easton students scored higher in reading, mathematics, and science in the Commonwealth. We continue to enjoy the positive relationship with Stonehill College as well as the relationship that Dr. Alan Leitman, Chairman of the Educational Department, has with our participating teachers; namely, Mrs. Kathleen Duggan and Mrs. Lorna Paone. This is an attempt to acquaint these educational majors with the knowledge and understanding of the Easton curriculum.

Chapter 188 (Educational Reform Act) has produced funds for School improvement Councils to purchase special materials necessary for the individual schools. These councils are made up of parents, teachers, administrators, and a parent-at-large.

Many district-wide competitions, such as spelling contests, poster contests, essay contests, mathematics contests, and chess tournaments, were held to enrich the elementary programs.

It would be difficult to talk about elementary education without mentioning Sheep Pasture. This unique program is an enriching experience for all of our students. We are very fortunate to have such a resource in the Town of Easton.

Secondary

Standardized mid-years/finals have been a major goal to validate curriculum and to assess our curriculum goals. This project also has lead to some curriculum improvements, particularly in the science area with the adoption of the Regents format and curriculum. The further implementation of the Saxon series has allowed our mathematics scores to improve. SAT Preparation and Review courses will help the improvement of our scores for those students who are preparing to go on to further education.

Oliver Ames High School had one Merit Scholarship Finalist and five (5) letters of commendation.

The establishment of the In-House School Suspension Room has markedly improved the behavioral climate in each of the two (2) buildings.

"Eddie Was Here" was a fine presentation on drug education sponsored by S.A.D.D. students with the assistance of Mr. Bruce Palombo, Guidance Counselor.

The inception of the Quest Program, partly funded by the Easton Lions Club, was instituted at the seventh grade level to teach values and to help students to say "no" to drugs.

The Foreign Language Exchange Program has been very active with students between Venezuela and also between Rheims, France. During the summer Mr. Francis Ialenti accompanied a group of students to Rome.

Mrs. Vera Armstrong, Mr. Dale Erickson, and Mrs. Elaine Hanson have prepared a writing lab booklet to be used at the junior high level which addresses the needs of young writers.

The Athletic Program has experienced a great deal of success in all of the major sports areas, i.e. football, basketball, baseball, and hockey. A highlight of the year was the success of the Girls Field Hockey Team, under the direction of Joanne Coffman, that won them the Hockomock League Co-Championship.

Music activities were a major part of the social calendar at Oliver Ames High School. The success of the musical, marching band, show choir, chamber orchestra, symphony orchestra, and chorus expressed a great deal of hard work and talent.

There were three (3) Globe Show Scholastic Art winners and the interest in art continues to grow in the Easton Public Schools.

Maintenance

Major strives were made in the maintenance of the buildings, particularly at Oliver Ames High School where lockers were painted. Easton Junior High School had lockers painted, a new art room built, a new computer room as-

sembled, and a new crafts area was developed. Painting and new ceilings and windows were installed in the Middle School. Central Administration Offices were moved from Washington Street to the second floor at the Middle School. A transformer was removed from Moreau Hall. Grants have been awarded for a new heating plant at Parkview and elements of a new heating system at the Middle School.

Parent Advisory Councils

The support and energy of the Parent Advisory Councils contributed a great deal to the enrichment of activities in the school system. The money raised by these groups goes directly to the students' activities. Several of these groups have engaged in many fundraising efforts. Without their help it would be very difficult to maintain our programs at this time of fiscal restraint.

Closing Comments

Reports such as this only highlight the tinsel as one reflects on the year. There are many achievements day to day that are created in the classroom and other areas of the school that go unnoticed; nevertheless, they are not less important. It takes the efforts of all staff, professional and support, to make such a program successful. The Easton staff is well qualified and energetic, headed by a School Committee that is dedicated and responsive. We applaud the efforts of the Town Departments and thank them for their cooperative spirit. The School Committee, Central Administration, and all the staff will continue to nurture the quality of education for the students in the Town of Easton. We look forward to the challenge and thank the residents of Easton for their support.

Respectfully submitted,

George P. Lane, Ed.D.

FINANCE COMMITTEE

REPORT OF THE FINANCE COMMITTEE

The Finance Committee has been reviewing the Town Budget since January. As usual the main component of the budget growth is personnel cost which is controlled by labor contracts negotiated last year.

The latest income figures available to the Committee show that the Town will receive \$20,836,172.00 from all sources. After payment of fixed charges (Debt service, State and county charges, insurance, retirement, and other uncontrollables) there will be \$15,911,567.00 available for apportionment to the operating budgets.

The School budget has been held within its apportionment of available funds. The municipal side of the budget exceeds apportionment by some \$225,000.00 primarily because of the 13 new public safety positions authorized by last fall's Special Town Meeting.

To eliminate the shortfall the preliminary recommendation of the Finance Committee is to eliminate the proposed \$100,000.00 increase in the Stabilization Fund and to reduce the amount proposed for capital items to reduce the amount proposed for capital items to be purchased out of general revenue from \$380,000.00 to \$255,000.00. We make these recommendations reluctantly since we have always supported the generation of a stabilization fund to reduce the impact of extraordinary capital expenses on the town, and we have felt for the past few years the Capital Budget has been inadequate to maintain an efficient plant.

There are many factors entering into our present evaluation of the situation that may change between now and Town Meeting. The Committee will present more detailed recommendations to the Town Meeting.

REPORT OF THE POLICE DEPARTMENT

I respectfully submit my report for the year 1986.

Again we see an increase in the number of Complaints and Investigations for the year.

Having that type of growth in mind, we were happy to be able to convince Town Meeting of our need for more personnel. If all goes according to schedule, the five new men should be on board at the start of the new fiscal year.

During this year we acquired a new Computer System and an Eight-track Taping Machine. We feel that we are slowly bringing ourselves into the modern age.

Our next and biggest step will be the addition to the Police Station. I am hopeful that we will receive the go-ahead from the people of Easton this spring at Town Meeting.

Included in the station plans is a new radio system. We are presently using a system that was installed shortly after World War II. We have not changed one thing since its inception. As a result, there are days when we are overwhelmed by outside communities.

I would like to thank the members of my Department and all other Town personnel for making it an enjoyable year.

Respectfully submitted,

Walter Healey, Chief

REPORT OF THE FIRE DEPARTMENT

To the Honorable Board of Selectmen:

I hereby submit the report of the Easton Fire Department for the year 1986.

The Department has responded to 3,090 emergency calls, 1,002 of which were Ambulance Runs. The emergency runs have greatly increased due to the growth in population and the tremendous amount of building within the town.

Two new 1986 Ambulances were put into service this year, one in February and the other in July. Both of these vehicles are identical and fully equipped for all types of emergencies.

The 1969 Pirsch Ladder was refurbished in October and should serve the town for another several years.

A new Class A 1,000 G.P.M. engine must be purchased in 1987 to replace a thirty (30) year old engine. With the manning of Station No. 3 on a full time basis, it will require a reliable front line engine.

Eight (8) new firefighters were voted at the Special Town Meeting on September 15, 1986 to man Station No. 3. Out of these eight only seven accepted the position. The Department has exhausted the Eligibility List for new firefighters and must run another Entrance Examination in 1987. Station No. 3 should be ready to man in February 1987.

Fire Prevention Week was observed at all the Elementary Schools and Day Care Centers by the firefighters' donating their own time. A job well done.

I also would like to mention that many of the firefighters have given many free hours to speak with the citizens of Easton on fire safety and protection, job performance of the EMT's (Emergency Medical Technician) is greatly appreciated by the townspeople.

I want to take this opportunity to "Thank" each and every one of the firefighters for their professional manner shown in all emergencies, time spent in the maintenance and repair of the apparatus and the upkeep of the stations.

The Easton Fire Department wishes to express appreciation to the Town officials, all of the Boards and to the citizens of Easton for their support and cooperation for fire safety.

Respectfully submitted,

David W. Brown, Chief
FIRE DEPARTMENT

REPORT OF THE DIRECTOR PUBLIC WORKS AND TOWN ENGINEER

To the Honorable Board of Selectmen:

This past year saw significant changes to portions of the infrastructure of the Town. After several years of refusing to allow the filling of the Bridge Street site, the Massachusetts Bay Transportation Authority finally gave its approval after the bridge was closed by the Massachusetts Department of Public Works. Subsequently, the MBTA granted permission to the filling of the site of the Main Street bridge. Roads now exist where bridges once stood. Now, regardless of the length of time the MBTA takes in restoring rail service, residents need no longer worry about the closing and reopening of these two important structures.

Also, after long delays the two parking areas at Old and New Pond Dams were completed as part of a State grant to the Conservation Commission. Galahad Way was paved using funds held by the Planning and Zoning Board. The new standpipe on Washington Street was placed into operation. The municipal parking lot on Mechanic Street was paved and striped.

A most significant and important step was taken when plans for the expansion of the Sanitary Landfill were submitted to the Massachusetts Department of Environmental Quality Engineering for approval. The process was delayed because of the detection of hydrocarbons in several private wells on Howard Street. Proposals were being sought by the Board of Health to assess the problem and report the findings to the DEQE. It is believed that the assessment will allow the review of the landfill expansion plans to proceed with the final result being the granting of a permit for the expansion to occur. The Town will literally save millions of dollars over the lifetime of the expanded landfill.

A hydrogeological study of the Town's groundwater resources was substantially completed. The results of this study will include proposed revisions to various Town by-laws and rules and regulations. Implementation of site specific groundwater protection districts will result in added protection to one of the Town's most valuable resources.

The pressure of growth on the Town continues to be a problem for many, if not all, Town agencies. The demands on personnel, equipment and funds usually exceed their availability.

I must extend my personal appreciation to the superintendents and personnel of this Department. Operations of a 40-person department cannot be by one person alone. This is a joint venture whereby the residents of the Town benefit.

Very truly yours,

Howard Shaevitz, P.E.
DIRECTOR OF PUBLIC WORKS

REPORT OF THE HIGHWAY SUPERINTENDENT

To the Honorable Board of Selectmen:

I respectfully submit the following report for the year 1986.

The Highway Division has experienced another very busy year with the filling of both the Bridge Street and Main Street bridges, along with keeping up with road resurfacing and drainage problems.

With the steady influx of residents wanting more services, the Town is going to have to take a hard look on hiring more employees to keep up with the demands.

The Landfill Division could use a new rubbish packer, but with the Town not knowing which way the landfill is going, it is better to refurbish the two existing packers for this year.

The Maintenance Division is overwhelmed with work just trying to keep what we have running. The need for a mechanic's helper would greatly help in this area, just to do preventive maintenance when needed and also operate the street sweeper when not needed in the shop.

I would like to thank all Highway, Landfill and Maintenance Division personnel for their help and cooperation throughout the year and also thank them for a job well done. I would also like to thank Marion Nye, our Office Manager, for all her help, again a job well done.

Respectfully submitted,

Edward C. Jacobson

REPORT OF THE EASTON WATER DIVISION

To the Honorable Board of Selectmen:

I respectfully submit the following report and pumping record for the year 1986.

MONTH	GALLONS PUMPED	MONTH	GALLONS PUMPED
January	42,145,000	July	55,794,000
February	38,336,000	August	46,435,000
March	42,505,000	September	44,591,000
April	43,969,000	October	41,802,000
May	56,124,000	November	40,171,000
June	51,856,000	December	40,788,000

Total gallons pumped in 1986 — 544,516,000

The greatest amount pumped in one day was 2,857,000 gallons on May 18.

The Water Division responded to 2,467 service and emergency calls.

Connected 234 new services for a total of 5,264 active services.

Renewed 3 water services.

Dug up and repaired 40 service leaks.

Thawed out 7 services.

Dug up and replaced 4 old fire hydrants with new traffic breakaway models.

7 hydrants were hit by automobiles. (Vehicle owners or insurance companies were billed for repairs)

229 meters were replaced.

Repaired 1 — 4" broken water main

1 — 6" broken water main

4 — 8" broken water mains

In 1986 new subdivisions added to our system:

1,660 feet of 4" water mains

360 feet of 6" water mains

14,100 feet of 8" water mains

1,000 feet of 10" water mains

27 new fire hydrants.

We now have a total of 119.2 miles of water mains and 955 hydrants in our system.

The Water Division installed 2,650 feet of 8-inch ductile iron water main and 5 hydrants on Howard Street, 170 feet of 8-inch ductile iron water main on Bridge Street and 100 feet of 12-inch ductile iron water main on Main Street.

The new 2 million gallon water storage tank in Unionville was completed and put into service.

The division purchased 15.50 acres of land in the Red Mill Road area to help protect the Canoe River aquifer.

The Easton Water Works is very proud to have been the first recipient of the Community Award of Merit presented by the Massachusetts Water Works Association. This award recognizes communities whose water operations best exemplify the highest standard of water supply practices.

I would like to express my appreciation to all department heads and employees for their assistance during the year, especially the employees of the Water Division as we begin our 100th year of service to the community: Dorothy Stone, Shirley Tufts, John Marsh, Richard Buckley, Raymond Keyes, John Fresh, Jr., Scott Habelt and Michael Berry.

Respectfully submitted,

REPORT OF THE TREE WARDEN AND BUILDING AND GROUNDS SUPERINTENDENT

To the Honorable Board of Selectmen:

I respectfully submit the following report for 1986.

Trimming of dead and dangerous branches continues to be done throughout the town. Seventy-six dead or dying shade trees were removed; of which thirty-nine were sugar maples. Damage cleanup from Hurrican Gloria was completed. Occasionally broken limbs appeared during the year throughout the Town, apparently weakened from the hurricane and other high winds. These were removed as soon as possible.

Heavy brush and low limbs on Foundry Street from Highland Street to the Norton line was cut followed by the Flail mower. Brush was cut in other areas also.

Spraying was done as needed for cankerworms and japanese beetles. The gypsy moth problem has subsided somewhat. Oak leaftier and skeletonizer showed very little damage. Aphids were sprayed and were difficult to control during the wet summer.

Poison ivy eradication on private property at the request of property owners and along roadsides, playgrounds and play areas was done.

Tree and brush removal from the various projects of New and Old Ponds, temporary R—R crossing on William Street and the removal of Bridge Street and Main Street bridges put our tree planting program on hold till late fall with thirty-three shade and flowering trees being planted.

A generous young man contributed a sum of money to purchase five hundred three (3) year old flowering dogwood seedlings through the Massachusetts Tree Wardens' Association. The seedlings were distributed to Easton schools to be given to all 4th and 5th grade students. I wish to publicly thank this man for his generosity.

Pitched metal roofs, with additional insulation, were installed over the existing flat roof at the Police & Fire building on Lothrop Street, which had been leaking for some time. A six foot high chain link fence with four access gates was installed around the swimming area on Lincoln Street. Fencing was put up between the basketball court and ballfield at Unionville playground and fencing put up around the play areas at the former Eastondale School.

New heating controls have been installed at both the Town Office and the Police & Fire complex, and with occasional minor adjustments they are working out very well.

Cemeteries and other areas under our control were cleaned of winter debris. Spring and summer rains were more than adequate and grass was mowed more frequently than normal. The rain also affected the pool somewhat. As pumping time was cut down, lime and chlorine had to be added to keep the pool at a safe level. Weekly laboratory reports were favorable for the swimming season.

Heating, plumbing, electrical and other maintenance work was done as needed or required.

I wish to thank all departments and their personnel for their assistance during the year, as well as the office staff.

Respectfully submitted,

REPORT OF THE BOARD OF HEALTH

To the Citizens of Easton:

In compliance with the General Laws of the Commonwealth of Massachusetts, it is our pleasure to herewith submit to you a summary of the work done under the jurisdiction of the Board of Health for the year 1986.

At the annual election, Robert J. Kane was re-elected. At the organizational meeting, Donald F. Craig was re-elected Chairman. Appointments made by the Board include: Provisional Plumbing Inspector Daniel A. McNeill, Associate Plumbing Inspector Robert A. Govey, Agent Mary P. Connolly, C.H.O., Milk Inspector John D. Melin, Nominated John D. Melin to the Department of Agriculture as Animal Inspector. Nursing services are provided by agreement with the Community Health Agency, Inc., of Attleboro. Laboratory services are provided as needed by Oliveria's Environmental Laboratories.

Easton enjoyed a relatively healthy year in respect to diseases. All of these were reported to the State and federal Units and the necessary follow-ups done.

Another grant was received by the Board to offer fluoride mouth rinse to the pupils in grades 1 through 4 in the Easton school system. The Board expresses its appreciation to the school nurses and volunteers who have administered this program.

The appreciation of the Board and the townspeople of Easton is expressed to the retiring Plumbing Inspector George E. Sawyer who served the Town for many years and gave full time service although he was only a part time employee.

Because of the number of requests made of the Board to fluoride the water and the results of the State feasibility study, the Board has ordered the fluoridation of the water. This is the only way to have the question on the ballot and this will be on the ballot in the April 1987 election for the townspeople to decide.

The Board wishes to thank Lorraine Watson for the services rendered to the Board during her time with the Board and is happy to announce that JoAnne Pilz was appointed to take her place and has proven a valuable asset to the Board.

The Animal Inspector inspected all dairy cattle, dairy cows, horses, ponies, sheep, swine and beef cattle during 1986 and quarantined all animals, upon receipt of notice, who had bitten people.

A contaminated private well on Howard Street resulted in extensive water testing and the Selectmen have extended water and made it available to all

citizens within the 2000 feet radius. RFP for finding the source of the problem have been requested and this assessment will begin early in 1987. This will be also a part of the landfill expansion program.

Many inspections were conducted by the Board and staff for the many responsibilities mandated by the Laws and Codes which are under their jurisdiction. Members of the Board are making many inspections due to the lack of personnel.

Annual clinics which were sponsored by the Board were the Influenza Immunization Clinic and the Rabies Clinic.

The Board appreciates the cooperation of the various town boards and continues to work closely with the Department of Public Health and the Department of Environmental Engineering.

Several hazardous material spills were discovered by the Board after tips from residences and the Board appreciates the attention that citizens are showing in reporting these incidents to the Board. This will continue to be a problem.

Respectfully submitted,

REPORT OF THE LIBRARIAN AMES FREE LIBRARY OF EASTON

The report of the Ames Free Library of Easton, Inc., for the year ending December 31, 1986, is hereby submitted.

1986 was a year of changes for the library. At the annual meeting David Ames resigned from the presidency of the Board of Directors after 31 years in that office and 37 years as a Board member. The Board voted unanimously to

appoint him chairman. William M. Ames was elected to succeed him as President and Edwin C. White was named a new director.

In October Mrs. William H. Ames, donor of the children's wing in 1931 in memory of her husband, died suddenly at the age of 98. A member of the Board for 40 years, she was made Honorary Life Member upon her retirement in 1969.

During the year 1,290 new books were added to the library, 826 of these to the adult section and 464 to the children's room. Total library holdings rose to 48,252.

A combined total of 63,626 books circulated in 1986. For the first time the juvenile circulation of 32,932 was larger (by 2,238) than the adult circulation of 30,694. During the year 1,421 borrowers' cards were registered, 976 of them adult and 445 juvenile, making a total of 4,886 library cards held by Easton residents.

Special children's activities included spring and fall story hours for pre-schoolers and a summer reading club for grade-school children and pre-school youngsters, the latter with mothers reading the stories aloud to them. In 1986 the club had a membership of 137, with 88 reading and reporting on 10 or more books.

There were two innovations at the library during the year. The first was the addition of videocassettes on a trial basis. Since popular movies that are available at local video stores were not added, adult interest was limited, but a 6-months' circulation of 203 among juvenile borrowers showed there is a definite interest in videocassettes for children.

The second innovation, starting December 1st, was the change in library hours to four morning openings at 10 A.M. instead of two at 8 A.M. for the convenience of the public. The complete schedule is now: Mondays, Tuesdays: 10 A.M. to 8 P.M.; Wednesdays, Thursdays: Noon to 8 P.M.; Fridays, Saturdays: 10 A.M. to 5 P.M.; closed Sundays and holidays.

REPORT OF THE EASTON LIBRARY STUDY COMMITTEE

The Easton Library Study Committee has been very busy and productive this past year. With the \$4,819.00 appropriated at the 1986 Annual Town Meeting, the Committee has been able to hire Library Consultant James R. Kennedy, Director of St. Anselm's College library. With Mr. Kennedy's assistance and leadership, several sites were repeatedly viewed and reviewed.

The vacant School Department Administration Building on Washington Street was eliminated from consideration for the location of a Town library due to its limited size. This site would have necessitated a life-time agreement with the adjacent property owner for parking privileges.

The Furnace Village School on Bay Road is the Committee's second choice. Although the site is adequate in size, the condition of the building would add the cost of gutting the interior before adding a structure five times the present size to meet Easton's present population needs.

Of the two parcels of land on Depot Street, the seven acres next to the North Easton Savings Bank was deemed ideal. The inside curve of the road permits safe access and an aesthetically pleasing location. The neighboring banks, markets, restaurants and other commercial establishments encourage family type activities in a concentrated area.

With Town Meeting approval, the next phase is to acquire the property and work with an architect and a fundraiser to formulate the goals and objectives which would establish quality library services in Easton.

The Committee would like to acknowledge the encouraging support of the Board of Selectmen and the Town Administrator, as well as other pertinent Town departments, in conducting land tests, informative meetings and professional guidance.

The issue has been studied; the need has been overwhelmingly determined; the location has been selected and a timetable has been outlined. The question remaining: Does the Town of Easton want to operate a modern, full service resource and community center?

REPORT OF THE EASTON PLANNING & ZONING BOARD

To the Citizens of Easton:

In 1986 the Planning and Zoning Board continued to cope with the problem of rapid growth. As more and more marginal land is proposed for subdivisions, the Board has put in correspondingly increased overtime on site inspections of undeveloped land and of streets being built in approved subdivisions. Discovery of many failures to conform to approved site plans in development of business and industrial properties also led to frequent site inspections. In response to these pressures, the Board has been fortunate to obtain the services of a professional engineer, Philip O'Connell, as part-time consultant to undertake some inspectional duties.

Continuing attention has been given to the renovation of the historic central business district of North Easton, to the initiatives of the Water Division for the protection of the Town water supply, and to the correction of dangerous intersections. We regret that a number of warrant articles proposed at Town Meetings for revisions of the Zoning By Law and for street acceptances have not been considered for lack of a quorum.

The Board in 1986 experienced the departure of its two engineer members, Edmund J. McAdam, Jr., and Dana F. Shave. We have particularly felt the loss of the long experience and expertise of Chairman McAdam, who left the Commonwealth of Massachusetts to live and work in Florida. We, therefore, appreciate the cooperation we have received from John Pires, Inspector of Buildings/Zoning Enforcing Officer, and Howard Shaevitz, Director of the Department of Public Works.

During 1986 more than one hundred site and subdivision inspections were made by Board members, a design review of thirty-four site plans was completed, there were seventeen discussions regarding the feasibility of developing parcels of land, there was coordination with adjacent town planning boards, and meetings with the Massachusetts Federation of Planning and Appeals Boards were attended by Board members.

Nine preliminary subdivision plans were submitted for review and two preliminary plans were approved. Six definitive subdivision plans were submitted for review and six were approved. Thirty-four site plans were reviewed and approved, and sixty-one plans not requiring approval under the subdivision control law were endorsed.

The continued support and cooperation from all concerned citizens who have worked with us in the pursuit of good community planning is greatly appreciated.

REPORT OF THE CONSERVATION COMMISSION

To the Citizens of the Town of Easton:

In the year of 1986 the Conservation Commission drafted and submitted warrant articles to rescind and then adopt a new Wetlands Protection Bylaw, Article 29 of the Town of Easton Bylaws, and subsequently rules and regulations to effectuate said bylaw. As of December 8, 1986 said bylaw and rules and regulations are in effect and are in addition to the state regulations. The intention of our new bylaw is to provide a further means of protecting our valuable wetland areas.

The Wetlands Protection Act and Bylaw under which the Conservation Commission operates saw us with eleven (11) Determination of Wetlands Applicability and fifty-seven (57) Order of Conditions for the year which represents approximately 100 individual parcels of land.

The Commission would like to give special thanks to the DPW for their efforts in providing Old Pond and New Pond with parking lots and canoe ramps, both of which are being used for fishing, hiking and picnic activities.

All of the Commission members would like to thank every Town board and official who has assisted us over the past year and to thank our fellow citizens for their continuous support and vigilance in helping protect our valuable wetlands.

REPORT OF THE HISTORICAL COMMISSION

The Easton Historical Commission continued to identify, register, and promote an awareness of the historical assets of the town. Any resident in the community who lives in an historic house is encouraged to contact the Commission about an appropriate way to indicate its significance.

To identify the national historical districts in Easton, the Commission, with the cooperation of the Department of Public Works, has marked the beginnings of the three areas: the Bay Road, the North Easton Village, and the Furnace Village. Also, the Commission emphasizes the importance of long-range plans for controlled growth in Easton.

The Commission congratulates the Water Department for one hundred years of service and anticipates assuming an active role in the planning for the local commemoration of the Bicentennial of the Constitution. Copies of the historical maps of Easton prepared by the Commission and the Bristol County Development Council are still available.

The very fine services of two former members, Suzanne Lally and Frank Meninno, are gratefully acknowledged.

VETERANS' MEMORIAL SCHOLARSHIP COMMITTEE

REPORT OF THE VETERANS' SERVICES DEPARTMENT

During 1986, 88 veterans or their dependents received assistance through either the Veterans' Benefits or the Veterans' Services Programs.

Through the Veterans' Benefits Program, 17 veterans or their widows and children received financial assistance with household expenses and/or medical bills. This program was open to low income Easton veterans or their dependents who met the income and asset guidelines that were established by the Commissioner of Veterans' Services. The monthly benefits were paid from local appropriation with the State of Massachusetts reimbursing the Town for 75% of the veterans' benefits issued.

During this past year 76 individuals received assistance through the Veterans' Services Program. This program is open to all Easton veterans or their dependents regardless of income. As Veterans' Agent, I provided direct service or advocated on behalf of the veteran with various agencies to obtain assistance. If the veteran was unable to come to the Town Office because of poor health, I made a home visit. Some veterans filed applications or submitted information to the Veterans' Administration regarding pensions, compensation claims, burial benefits, education benefits, or home loans. Others applied for fuel assistance or received help in filing for Social Security, SSI Disability or Medicaid. Some sought help with nursing home placement or obtaining property tax exemption.

The Veterans' Services Department was open each week day from 8:30 a.m. to 12:00 noon and from 1:00 p.m. to 4:30 p.m.

I wish to thank the Board of Selectmen for their continued support of this Veterans' Services Department.

Respectfully submitted,

Dolores M. Kent

REPORT OF THE COUNCIL ON AGING

During 1986 the Council on Aging provided transportation, nutrition, recreation, outreach and referral services to the elderly residents of Easton.

The transportation program, consisting primarily of shuttle van service, was supplemented by our back-up drivers and volunteers who drove the elderly to their medical appointments, the Dial-A-Bat service for handicapped elders and with referrals for transportation to Medicaid and Old Colony Elderly Services. 150 elders received 9,805 trips to/from grocery stores, shopping malls, medical appointments, hairdresser appointments and to the Senior Center. The transportation program was funded through the municipal budget with additional support coming from participant donations and mileage reimbursement for our volunteer drivers supplied by the Area Agency on Aging/Old Colony Planning Council.

60-70 elders took part in the nutrition program at the Senior Center or received meals-on-wheels each week day. A total of 16,470 meals were served during the year. Old Colony Elderly Services provided the lunches at the Center and supplied the majority of the meals-on-wheels and some seniors received special-diet meals from the Easton-Lincoln Nursing Home.

Recreational and instructional programs at the Senior Center included art, ceramics, decorative wood painting, exercise, line dancing, speech reading and quilting. The bowling league grew to 64 seniors who met on Monday afternoons at Maple Alleys in Brockton. Council on Aging day trips and overnight tours remained popular. We accommodated 896 passengers on 15 trips throughout the year.

The Council expanded the Outreach program with a grant from the Executive Office of Elder Affairs by hiring a part-time Outreach worker who made home visits and contacted elders who had not received C.O.A. services in the past year. She arranged a variety of home care services for our elders by working with local social service agencies and volunteer groups.

Our monthly newsletter was mailed or delivered to each elderly household in Easton with funds from the Executive Office of Elder Affairs. The newsletter contained information on Council on Aging programs and news items of interest to seniors. Volunteers and staff members took fuel assistance applications, issued senior citizen identification cards, completed Bay State Gas discount cards and distributed government surplus food to low-income residents. If elders could not come to the office or to the Senior Center for assistance, our Outreach Worker or Director made home visits.

We would like to thank the many volunteers who make our programs possible and the Easton Housing Authority for the use of their community hall for

our Senior Center. We extend our appreciation to the Board of Selectmen, the Finance Committee and the residents of Easton for their continued support of our elderly services and programs.

REPORT OF THE CEMETERY COMMISSION

This year we have endeavored to clear and clean up four cemeteries that needed much work; they are the Thomas Manley, Prez Packard, Apollos Clark, and Ichabod Manley cemeteries. At this point all of the cemeteries are clear of underbrush and will remain in this condition with normal maintenance.

In the coming year we shall clean and repair monuments wherever possible.

Many thanks are in order to Dan Amorin and his crew for the upkeep and mowing of the cemeteries.

Sincerely,

Clyde A. Craig, Chairman

REPORT OF THE EASTON RECREATION DEPARTMENT

The Easton Recreation Department once again experienced a very rewarding season with population growth in their varied activities. The traditional self-supporting adult programs continued to flourish — specifically aerobics, co-educational volleyball, open gym, basketball, over 30 men's basketball, and the special needs multi-programs: instructional and recreational basketball, arts and crafts, and social activities.

The youth ski programs exceeded growth expectations, both at the Wednesday afternoon programs at Blue Hills Ski School and the four-day excursions at the New Hampshire ski lodges.

During the summer the inclusion of the fence surrounding the town swimming area offered additional revenue for both lessons and free swim. Also, the summer playground activities at Frothingham Park and tennis instructions at Oliver Ames High School offered worthwhile appreciated programs. The introduction of a youth and adult tennis tournament for residents of the community — male and female, showed that this sport will increase in enrollment during the summer of 1987.

The Easton Recreation Department is highly appreciative of the Department of Public Works for their cooperation in improving and maintaining the athletic areas.

REPORT OF THE OLD COLONY PLANNING COUNCIL

As your representatives to the Old Colony Planning Council, we are pleased to present this report of the Council's activities for 1986.

In 1986 the Council's planning district was expanded to include the town of Halifax as a member. The town of Halifax, by vote of its town meeting, became the fourteenth member community of the Council and was previously only one of three communities in Massachusetts not affiliated with a regional planning council. The Council officially voted to accept Halifax as a member in May of 1986.

The activities of the Council were focused in three major areas in 1986: Community and Economic Development Planning; Transportation and Transit Planning; and, Area Agency on Aging Planning, including the coordination and implementation of elders' service programs.

The issue of future water supply and the allocation of resources continued to dominate the agenda of the Council and be the most important community development issue. A series of meetings and seminars on future water supply were sponsored by the Council in an effort to provide local officials with the opportunity to become better informed on the nature of the water supply allocation problem and what might be done to satisfy the present and future needs for water in resource deficient communities. It was clear from these meetings that the Commonwealth's Water Supply policy is deficient in the sense that it does not facilitate communities working together to address their problems cooperatively but fosters independent and individual community approaches. Consideration must be given to revising the current State Water policy to create the proper atmosphere to encourage communities to join together to determine how they can best meet their future water supply requirements and to sustain future growth in the region.

Economic Development activities of the Council were guided during the year by the Overall Economic Development Program (OEDP) Committee chaired by Mr. Joseph P. Joseph, Executive Director of the Brockton Area Private Industry Council. The OEDP Committee is the principal economic development coordinating mechanism in the region and is responsible for recommending Council action on applications for Industrial Revenue Bond (IRB) financing. This past year the OEDP Committee processed four applications for IRB funding in the amount of \$7,750,000. The number of applications and amount of IRB financing was down dramatically from 1985 when \$50,850,000 in IRB financing was approved for funding by the Council.

The Transportation and Transit planning activities of the Council required the preparation of a number of documents during the year for OCPC member communities to remain eligible for state and federal transportation improvement program funds. These included the Transportation Plan update; the Transportation Improvement Program and a Prospectus of the region.

The Council staff completed approximately 170 traffic counts for member communities and the Mass DPW using traffic recording devices to note existing traffic volumes at these locations. Traffic counts have been made in almost every OCPC community during the year.

During the past year the Council provided printed Accident Summary Reports of each community participating in the program. The information developed from the above sources is essential to the transportation planning activities of the Council and to local officials in developing solutions to traffic and transportation problems.

The Council, acting as the Area Agency on Aging, was responsible for administering Older Americans Act monies allocated to the region. The Area Agency funded and coordinated a wide range of community, in-home and nutritional services for elders. District communities directly benefitting from Title III grants from the Area Agency in 1986 include:

Avon, Nutrition Program; Brockton, Dorn-Davies Senior Center; Easton, transportation for handicapped elders; Kingston, Nutrition Program and Outreach Program; and Plymouth, Senior Center Programs.

In addition to the direct funding to these communities, several other programs are administered regionally for the benefit of elders in the entire service area. These programs include the Volunteer Transportation Program and Nursing Home Ombudsman Program administered by the Area Agency.

Nutrition services in the form of congregate and home delivered meals are made available through Title III—C monies in many communities in the service area, including Easton.

In 1986 John J. DeMarco of Avon was elected as President of OCPC; Robert W. Smith of East Bridgewater was elected as Council Secretary; and James A. Kassos of Brockton was elected as Council Treasurer for the year.

The Council gratefully acknowledges the generous support and cooperation of its member communities, the participation and involvement of members of the Joint Transportation Committee chaired by Mr. John Yaney; the Overall Economic Development Committee chaired by Mr. Joseph Joseph and the Area Agency on Aging Advisory Committee chaired by Mr. John Mather. The Council also recognizes the work of local boards and commissions and the many government agencies, public and private institutions and individuals who have assisted the Council.

Submitted by Board of Selectmen

Est. Cost \$50,000

ARTICLE 7. To see if the Town will vote to accept the provisions of Chapter 40, Section 57, Massachusetts General Laws which provides that licenses and permits may be denied, revoked or suspended for the failure to pay municipal taxes or charges, or take any other action relative thereto.

Submitted by Board of Selectmen

ARTICLE 8. To see if the Town will vote to amend the By-laws of the Town by inserting therein the following new article 21:

Article 21 – LICENSES OF DELINQUENT TAXPAYERS

Section (a) The tax collector or other municipal official responsible for records of all municipal taxes, assessments, betterments and other municipal charges, hereinafter referred to as the tax collector, shall annually furnish to each department, board, commission or division, hereinafter referred to as the licensing authority, that issues licenses or permits including renewals and transfers, a list of any person, corporation or enterprise, hereinafter referred to as the party, that has neglected or refused to pay any local taxes, fees, assessments, betterments or other municipal charges for not less than a twelve-month period, and that such party has not filed in good faith a pending application for an abatement of such tax or a pending petition before the appellate tax board.

Section (b) The licensing authority may deny, revoke or suspend any li-

cense or permit, including renewals and transfers of any party whose name appears on said list furnished to the licensing authority from the tax collector; provided, however, that written notice is given to the party and the tax collector; provided, however, that notice is given to the party and the tax collector, as required by applicable provisions of law, and the party is given a hearing to be held not earlier than fourteen days after said notice. Said list shall be prima facie evidence for denial, revocation or suspension of said license or permit to any party. The tax collector shall have the right to intervene in any hearing conducted with respect to such license denial, revocation or suspension. Any findings made by the licensing authority with respect to such license denial, revocation or suspension shall be made only for the purpose of such proceeding and shall not be relevant to or introduced in any other proceeding at law, except for any appeal from such license denial, revocation or suspension. Any license or permit denied, suspended or revoked under this section shall not be reissued or renewed until the license authority receives a certificate issued by the tax collector that the party is in good standing with respect to any and all local taxes, fees, assessments, betterments or other municipal charges, payable to the municipality as the date of issuance of said certificate.

Section (c) Any party shall be given an opportunity to enter into a payment agreement, thereby allowing the licensing authority to issue a certificate indicating said limitations to the license or permit and the validity of said license shall be conditioned upon the satisfactory compliance with said agreement. Failure to comply with said agreement shall be grounds for the suspension or revocation of said license or permit provided, however, that the holder be given notice and a hearing as required by applicable provisions of law.

Section (d) The Board of Selectmen may waive such denial, suspension or revocation if it finds there is no direct or indirect business interest by the property owner, its officers or stockholders, if any, or members of his immediate family, as defined in section one of chapter two hundred and sixty-eight in the business or activity conducted in or on said property.

Submitted by Board of Selectmen

ARTICLE 9. To see if the Town will vote to appropriate a sum of money to pay a bill incurred in Fiscal Year 1986 for arbitration expenses, and to determine whether the money will be provided by taxation, by appropriation from available funds in the Treasury, or by borrowing under the provisions of Chapter 44 of the General Laws, or take any other action relative thereto.

The purpose of this bylaw is to protect the wetlands, related water resources, and adjoining land areas in this municipality by controlling activities deemed by the Conservation Commission likely to have a significant or cumulative effect upon wetland values, including but not limited to the following: public or private water supply, groundwater, flood control, erosion and sedimentation control, storm damage prevention, water pollution, fisheries, shellfish, wildlife habitat, recreation, aesthetics, agriculture, and agriculture values (collectively, the "wetland values protected by this bylaw").

SECTION 2. Jurisdiction

Except as permitted by the Conservation Commission or as provided in this bylaw, no person shall remove, fill, dredge, build upon, or alter the following resource areas: within 100 feet of any freshwater wetland, coastal wetland, marsh, wet meadow, bog or swamp; within 100 feet of any bank, beach, dune, or flat; within 100 feet of any lake, river, pond, stream, or estuary; and land under said waters; or within 100 feet of any land subject to flooding or inundation by groundwater and surface water.

SECTION 3. Exceptions

The permit and application required by this bylaw shall not be required for maintaining, repairing, or replacing, but not substantially changing or en-

larging, an existing and lawfully located structure or facility used in the service of the public to provide electric, gas, water, telephone, telegraph or other telecommunication services, provided that the structure or facility is not substantially changed or enlarged, provided that written notice has been given to the Commission prior to commencement of work, and provided that the work conforms to performance standards and design specifications in regulations adopted by the Commission.

The permit and application required by this bylaw shall not apply to emergency projects necessary for the protection of the health or safety of the public, provided that the work is to be performed by or has been ordered to be performed by an agency of the Commonwealth or a political subdivision thereof, provided that advance notice, oral or written, has been given to the Commission prior to commencement of work or within 24 hours after commencement, provided that the Conservation Commission or its agent certifies the work as an emergency project, provided that the work is performed only for the time and place certified by the Conservation Commission for the limited purposes necessary to abate the emergency and provided that within 21 days of commencement of any emergency project a permit application shall be filed with the Commission for review as provided in this bylaw. Upon failure to meet these and other requirements of the Commission, the Commission may, after notice and a public hearing, revoke or modify an emergency project approval and order restoration and mitigation measures.

Other than stated in this section the exceptions provided in the Wetlands Protection Act shall not apply.

SECTION 4. Applications for Permits and Requests for Determination

Written application shall be filed with the Commission to perform activities regulated by this bylaw affecting resource areas protected by this bylaw. The application shall include such information and plans as are deemed necessary by the Commission to describe proposed activities and their effects on the environment. No activities shall commence without receiving and complying with a permit issued pursuant to this bylaw.

The Commission in an appropriate case may accept as the application and plans under this bylaw the Notice of Intent and plans filed under the Wetlands Protection Act, G.L. c. 131, Sec. 40.

Any person desiring to know whether or not proposed activity or an area is subject to this bylaw may in writing request a determination from the Commission. Such a request for determination shall contain data and plans specified by the regulations of the Commission.

At the time of any application or request the applicant shall pay a filing fee specified in regulations of the Commission. This fee is in addition to that required by the Wetlands Protection Act, G.L. c. 131, Sec. 40. In addition, the Commission is authorized to require the applicant to pay the costs and expense

of any expert consultant deemed necessary by the Commission to review the application or request up to a maximum of \$2,500.00. The Commission may waive the filing fee and costs and expenses for an application or request filed by a government agency and shall waive them for a request for determination filed by a person having no financial connection with the property which is the subject of the request.

SECTION 5. Notice and Hearings

Any person filing an application or a request for determination with the Commission at the same time shall give written notice thereof, by certified mail or hand delivery, to all abutters according to the most recent records of the assessors, including those across a traveled way or body of water. The notice to abutters shall enclose a copy of the application or request, with plans, or shall state where copies may be examined and obtained by abutters free of charge. When a person requesting a determination is other than the owner, the request, the notice of the hearing and the determination itself shall be sent by the Commission to the owner as well as to the person making the request.

The Commission shall conduct a public hearing on any application or request for determination, with written notice given at the expense of the applicant, five working days prior to the hearing, in a newspaper of general circulation in the municipality.

The Commission shall commence the public hearing within 21 days from the receipt of a completed application or request for determination.

The Commission shall issue its permit or determination in writing within 21 days of the close of the public hearing thereon.

The Commission in an appropriate case may combine its hearing under this bylaw with the hearing conducted under the Wetlands Protection Act, G.L. c. 131, Sec. 40.

The Commission shall have authority to continue the hearing to a date certain announced at the hearing, for reasons stated at the hearing, which may include receipt of additional information offered by the applicant or others, information and plans required of the applicant, deemed necessary by the Commission in its discretion, or comments and recommendations of boards and officials listed in Section 6. In the event the applicant objects to a continuance or postponement, the hearing shall be closed and the Commission shall take action on such information as is available.

SECTION 6. Coordination with Other Boards

Any person filing a permit application or a request for determination with the Commission shall provide a copy thereof at the same time, by certified mail or hand delivery, to the Board of Selectman, Planning Board, Board of Appeals, Board of Health, and Building Inspector. The Commission shall not take action

until such boards and officials have had 14 days from receipt of notice to file written comments and recommendations with the Commission, which the Commission shall take into account but which shall not be binding on the Commission. The applicant shall have the right to receive any such comments and recommendations, and to respond to them at a hearing of the Commission, prior to final action.

SECTION 7. Permits, Determinations, and Conditions

If the Commission after a public hearing determines that the activities which are the subject of the application are likely to have a significant or cumulative effect upon the wetland values protected by this bylaw, the Commission, within 21 days of the close of the hearing, shall issue or deny a permit for the activities requested. If it issues a permit, the Commission shall impose conditions which the Commission deems necessary or desirable to protect those values, and all activities shall be done in accordance with those conditions.

The Commission is empowered to deny a permit for failure to meet the requirements of this bylaw; for failure to submit necessary information and plans requested by the Commission; for failure to meet the design specifications, performance standards, and other requirements in regulations of the Commission; for failure to avoid or prevent unacceptable significant or cumulative effects upon the wetland values protected by this bylaw; and where no conditions are adequate to protect those values. Due consideration shall be given to any demonstrated hardship on the applicant by reason of denial, as presented at the public hearing.

A permit shall expire three years from the date of issuance. Notwithstanding the above, the Commission in its discretion may issue a permit expiring five years from the date of issuance for recurring or continuous maintenance work, provided that annual notification of time and location of work is given to the Commission. Any permit may be renewed once for an additional one year period, provided that a request for a renewal is received in writing by the Commission prior to expiration.

For good cause the Commission may revoke or modify a permit issued under this bylaw after public notice and public hearing, and notice to the holder of the permit.

The Commission in an appropriate case may combine the permit or other action on an application issued under this bylaw with the Order of Conditions issued under the Wetlands Protection Act.

SECTION 8. Regulations

After public notice and public hearing the Commission shall promulgate rules and regulations to effectuate the purposes of this bylaw. Failure by the Commission to promulgate such rules and regulations or a legal declaration of their invalidity by a court of law shall not act to suspend or invalidate the effect

of this bylaw.

At a minimum these regulations shall define key terms in this bylaw not inconsistent with this bylaw.

SECTION 9. Definitions

The following definitions shall apply in the interpretation and implementation of this bylaw.

"Commission" shall mean the Conservation Commission of the Town of Easton.

The term "person" shall include any individual, group of individuals, association, partnership, corporation, company, business organization, trust, estate, the Commonwealth or political subdivision thereof to the extent subject to town bylaws, administrative agency, public or quasi-public corporation or body, this municipality, and any other legal entity, its legal representatives, agents, or assigns.

The term "alter" shall include, without limitation, the following activities when undertaken to, upon, within or affecting resource areas subject to protection under the bylaw:

- (a) Removal, excavation, or dredging of soil, sand, gravel, or aggregate materials of any kind;
- (b) Changing of pre-existing drainage characteristics, flushing characteristics, salinity distribution, sedimentation patterns, flow patterns, or flood retention characteristics;
- (c) Drainage or other disturbances of water level or water table;
- (d) Dumping, discharging or filling with any material which may degrade water quality;
- (e) Placing of fill, or removal of material, which would alter elevation;
- (f) Driving of piles, erection or repair of buildings, or structures of any kind;
- (g) Placing of obstructions or objects in water;
- (h) Destruction of plant life including cutting of trees;
- (i) Changing water temperature, biochemical oxygen demand, or other physical or chemical characteristics of water;
- (j) Any activities, changes or work which may cause or tend to contri-

bute to pollution of any body of water or groundwater.

SECTION 10. Security

As part of a permit issued under this bylaw, in addition to any security required by any other municipal or state board, agency or official, the Commission may require that the performance and observance of the conditons imposed hereunder be secured wholly or in part by one or more of the methods described below:

- (a) By a proper bond or deposit of money or negotiable securities or other undertaking of financial responsibility sufficient in the opinion of the Commission;
- (b) By a conservation restriction, easement or other covenant enforceable in a court of law, executed and duly recorded by the owner of record, running with the land to the benefit of this municipality whereby the permit conditions shall be performed and observed before any lot may be conveyed other than by mortgage deed.

SECTION 11. Enforcement

The Commission, its agents, officers, and employees shall have authority to enter upon privately owned land for the purpose of performing their duties under this bylaw and may make or cause to be made such examinations, surveys or sampling as the Commission deems necessary.

The Commission shall have authority to enforce this bylaw, its regulations, and permits issued thereunder by violation notices, administrative orders, and civil and criminal court actions.

Upon request of the Commission, the Board of Selectmen and Town Counsel shall take legal action for enforcement under civil law. Upon request of the Commission the Chief of Police shall take legal action for enforcement under criminal law.

Municipal boards and officers, including any police officer or other officer having police powers, shall have authority to assist the Commission in enforcement.

Any person who violates any provision of this bylaw, regulations thereunder, or permits issued thereunder, shall be punished by a fine of not more than \$300.00. Each day or portion thereof during which a violation continues shall constitute a separate offense, and each provision of the bylaw, regulations, or permit violated shall constitute a separate offense.

In the alternative to criminal prosecution the Commission may elect to utilize the non-criminal disposition procedure set forth in G.L. c. 40, Sec. 21D.

SECTION 12. Burden of Proof

The applicant for a permit shall have the burden of proving by a preponderance of the credible evidence that the work proposed in the application will not have unacceptable significant or cumulative effect upon the wetland values protected by this bylaw. Failure to provide adequate evidence to the Commission supporting this burden shall be sufficient cause for the Commission to deny a permit or grant a permit with conditions.

SECTION 13. Relation to Wetlands Protection Act

This bylaw is adopted under the Home Rule Amendment of the Massachusetts Constitution and the Home Rule statutes, independent of the Wetlands Protection Act, G.L. C. 131, Sec. 40, and regulations thereunder.

SECTION 14. Severability

The invalidity of any section or provision of this bylaw shall not invalidate any other section or provision thereof, nor shall it invalidate any permit or determination which previously has been issued.

UNANIMOUS VOTE.

ARTICLE 8. VOTED to amend the Bylaws of the Town by inserting therein the following new Article 21:

ARTICLE 21 – LICENSES OF DELINQUENT TAXPAYERS

Section (a) The tax collector or other municipal official responsible for records of all municipal taxes, assessments, betterments and other municipal charges, hereinafter referred to as the tax collector, shall annually furnish to each department, board, commission or division, hereinafter referred to as the licensing authority, that issues licenses or permits including renewals and transfers, a list of any person, corporation or enterprise, hereinafter referred to as the party, that has neglected or refused to pay any local taxes, fees, assessments, betterments or other municipal charges for not less than a twelve month period,

and that such party has not filed in good faith a pending application for an abatement of such tax or a pending petition before the appellate tax board.

Section (b) The licensing authority may deny, revoke or suspend any license or permit, including renewals and transfers of any party whose name appears on said list furnished to the licensing authority from the tax collector; provided, however, that written notice is given to the party and the tax collector; provided, however, that notice is given to the party and the tax collector, as required by applicable provisions of law, and the party is given a hearing to be held not earlier than fourteen days after said notice. Said list shall be prima facie evidence for denial, revocation or suspension of said license or permit to any party. The tax collector shall have the right to intervene in any hearing conducted with respect to such license denial, revocation or suspension. Any findings made by the licensing authority with respect to such license denial, revocation or suspension shall be made only for the purpose of such proceeding and shall not be relevant to or introduced in any other proceeding at law, except for any appeal from such license denial, revocation or suspension. Any license or permit denied, suspended or revoked under this section shall not be reissued or renewed until the license authority receives a certificate issued by the tax collector that the party is in good standing with respect to any and all local taxes, fees, assessments, betterments or other municipal charges, payable to the municipality as the date of issuance of said certificate.

Section (c) Any party shall be given an opportunity to enter into a payment agreement, thereby allowing the licensing authority to issue a certificate indicating said limitations to the license or permit and the validity of said license shall be conditioned upon the satisfactory compliance with said agreement. Failure to comply with said agreement shall be grounds for the suspension or revocation of said license or permit; provided, however, that the holder be given notice and a hearing as required by applicable provisions of law.

Section (d) The Board of Selectmen may waive such denial, suspension or revocation if it finds there is no direct or indirect business interest by the property owner, its officers or stockholders, if any, or members of his immediate family, as defined in section one of chapter two hundred and sixty-eight in the business or activity conducted in or on said property. WETLANDS PROTECTION BYLAW

SECTION 1. Purpose

The purpose of this bylaw is to protect the wetlands, related water resources, and adjoining land areas in this municipality by controlling activities deemed by the Conservation Commission likely to have a significant or cumulative effect upon wetland values, including but not limited to the following: public or private water supply, groundwater, flood control, erosion and sedimentation control, storm damage prevention, water pollution, fisheries, shellfish, wildlife habitat, recreation, aesthetics, agriculture, and agriculture values (collectively, the "wetland values protected by this bylaw").

SECTION 2. Jurisdiction

Except as permitted by the Conservation Commission or as provided in this bylaw, no person shall remove, fill, dredge, build upon, or alter the following resource areas: within 100 feet of any freshwater wetland, coastal wetland, marsh, wet meadow, bog or swamp; within 100 feet of any bank, beach, dune, or flat; within 100 feet of any lake, river, pond, stream or estuary; and land under said waters; or within 100 feet of any land subject to flooding or inundation by groundwater and surface water.

SECTION 3. Exceptions

The permit and application required by this bylaw shall not be required for maintaining, repairing, or replacing, but not substantially changing or enlarging, an existing and lawfully located structure or facility used in the service of the public to provide electric, gas, water, telephone, telegraph or other telecommunication services, provided that the structure or facility is not substantially changed or enlarged, provided that written notice has been given to the Commission prior to commencement of work, and provided that the work conforms to performance standards and design specifications in regulations adopted by the Commission.

The permit and application required by this bylaw shall not apply to emergency projects necessary for the protection of the health or safety of the public, provided that the work is to be performed by or has been ordered to be performed by an agency of the Commonwealth or a political subdivision thereof, provided that advance notice, oral or written, has been given to the Commission prior to commencement of work or within 24 hours after commencement, provided that the Conservation Commission or its agent certifies the work as an emergency project, provided that the work is performed only for the time and place certified by the Conservation Commission for the limited purposes necessary to abate the emergency, and provided that within 21 days of commencement of any emergency project a permit application shall be filed with the Commission for review as provided in this bylaw. Upon failure to meet these and other requirements of the Commission, the Commission may, after notice and a public hearing, revoke or modify an emergency project approval and order restoration and mitigation measures.

Other than stated in this section the exceptions provided in the Wetlands Protection Act shall not apply.

SECTION 4. Applications for Permits and Requests for Determination

Written application shall be filed with the Commission to perform activities regulated by this bylaw affecting resource areas protected by this bylaw. The application shall include such information and plans as are deemed necessary by the Commission to describe proposed activities and their effects on the environment. No activities shall commence without receiving and complying with a permit issued pursuant to this bylaw.

The Commission in an appropriate case may accept as the application and plans under this bylaw the Notice of Intent and plans filed under the Wetlands Protection Act, G.L. c. 131, Sec. 40.

Any person desiring to know whether or not proposed activity or an area is subject to this bylaw may in writing request a determination from the Commission. Such a request for determination shall contain data and plans specified by the regulations of the Commission.

At the time of an application or request, the applicant shall pay a filing fee specified in regulations of the Commission. This fee is in addition to that required by the Wetlands Protection Act, G.L. c. 131, Sec. 40. In addition, the Commission is authorized to require the applicant to pay the costs and expense of any expert consultant deemed necessary by the Commission to review the application or request up to a maximum of \$2,500.00. The Commission may waive the filing fee and costs and expenses for an application or request filed by a government agency and shall waive them for a request for determination filed by a person having no financial connection with the property which is the subject of the request.

SECTION 5. Notice and Hearings

Any person filing an application or a request for determination with the Commission at the same time shall give written notice thereof, by certified mail or hand delivery, to all abutters according to the most recent records of the assessors, including those across a traveled way or body of water. The notice to abutters shall enclose a copy of the application or request, with plans, or shall state where copies may be examined and obtained by abutters free of charge. When a person requesting a determination is other than the owner, the request, the notice of the hearing and the determination itself shall be sent by the Commission to the owner as well as to the person making the request.

The Commission shall conduct a public hearing on any application or request for determination, with written notice given at the expenses of the applicant, five working days prior to the hearing, in a newspaper of general circulation in the municipality.

The Commission shall commence the public hearing within 21 days from the receipt of a completed application or request for determination.

The Commission shall issue its permit or determination in writing within 21 days of the close of the public hearing thereon.

The Commission in an appropriate case may combine its hearing under this bylaw with the hearing conducted under the Wetlands Protection Act, G.L. c. 131, Sec. 40.

The Commission shall have authority to continue the hearing to a date certain announced at the hearing, for reasons stated at the hearing, which may include receipt of additional information offered by the applicant or others, information and plans required of the applicant, deemed necessary by the Commission in its discretion, or comments and recommendations of boards and officials listed in Section 6. In the event the applicant objects to a continuance or postponement, the hearing shall be closed and the Commission shall take action on such information as is available.

SECTION 6. Coordination with Other Boards

Any person filing a permit application or a request for determination with the Commission shall provide a copy thereof at the same time, by certified mail or hand delivery, to the Board of Selectmen, Planning Board, Board of Appeals, Board of Health, and Building Inspector. The Commission shall not take action until such boards and officials have had 14 days from receipt of notice to file written comments and recommendations with the Commission, which the Commission shall take into account but which shall not be binding on the Commission. The applicant shall have the right to receive any such comments and recommendations, and to respond to them at a hearing of the Commission, prior to final action.

SECTION 7. Permits, Determinations, and Conditions

If the Commission after a public hearing determines that the activities which are the subject of the application are likely to have a significant or cumulative effect upon the wetland values protected by this bylaw, the Commission, within 21 days of the close of the hearing, shall issue or deny a permit for the activities requested. If it issues a permit, the Commission shall impose conditions which the Commission deems necessary or desirable to protect those values, and all activities shall be done in accordance with those conditions.

The Commission is empowered to deny a permit for failure to meet the requirements of this bylaw; for failure to submit necessary information and plans requested by the Commission; for failure to meet the design specifications, performance standards, and other requirements in regulations of the Commission; for failure to avoid or prevent unacceptable significant or cumulative effects upon the wetland values protected by this bylaw; and where no conditions are adequate to protect those values. Due consideration shall be given to any

demonstrated hardship on the applicant by reason of denial, as presented at the public hearing.

A permit shall expire three years from the date of issuance. Notwithstanding the above, the Commission in its discretion may issue a permit expiring five years from the date of issuance for recurring or continuous maintenance work, provided that annual notification of time and location of work is given to the Commission. Any permit may be renewed once for an additional one year period, provided that a request for a renewal is received in writing by the Commission prior to expiration.

For good cause the Commission may revoke or modify a permit issued under this bylaw after public notice and public hearing, and notice to the holder of the permit.

The Commission in an appropriate case may combine the permit or other action on an application issued under this bylaw with the Order of Conditions issued under the Wetlands Protection Act.

SECTION 8. Regulations

After public notice and public hearing the Commission shall promulgate rules and regulations to effectuate the purposes of this bylaw. Failure by the Commission to promulgate such rules and regulations or a legal declaration of their invalidity by a court of law shall not act to suspend or invalidate the effect of this bylaw.

At a minimum these regulations shall define key terms in this bylaw not inconsistent with this bylaw.

SECTION 9. Definitions

The following definitions shall apply in the interpretation and implementation of this bylaw.

"Commission" shall mean the Conservation Commission of the Town of Easton.

The term "person" shall include any individual, group of individuals, association, partnership, corporation, company, business organization, trust, estate, the Commonwealth or political subdivision thereof to the extent subject to town bylaws, administrative agency, public or quasi-public corporation or body, this municipality, and any other legal entity, its legal representatives, agents, or assigns.

The term "alter" shall include, without limitation, the following activities when undertaken to, upon, within or affecting resource areas subject to protection under the bylaw.:

- (a) Removal, excavation, or dredging of soil, sand, gravel, or aggregate

materials of any kind;

- (b) Changing of pre-existing drainage characteristics, flushing characteristics, salinity distribution, sedimentation patterns, flow patterns, or flood retention characteristics;
- (c) Drainage or other disturbances of water level or water table;
- (d) Dumping, discharging or filling with any material which may degrade water quality;
- (e) Placing fill, or removal of material, which would alter elevation;
- (f) Driving of piles, erection or repair of buildings, or structures of any kind.
- (g) Placing of obstructions or objects in water;
- (h) Destruction of plant life including cutting of trees;
- (i) Changing water temperature, biochemical oxygen demand, or other physical or chemical characteristics of water;
- (j) Any activities, changes or work which may cause or tend to contribute to pollution of any body of water or groundwater.

SECTION 10. Security

As part of a permit issued under this bylaw, in addition to any security required by any other municipal or state board, agency or official, the Commission may require that the performance and observance of the conditions imposed hereunder be secured wholly or in part by one or more of the methods described below:

- (a) By a proper bond or deposit of money or negotiable securities or other undertaking of financial responsibility sufficient in the opinion of the Commission;
- (b) By a conservation restriction, easement or other covenant enforceable in a court of law, executed and duly recorded by the owner of record, running with the land to the benefit of this municipality whereby the permit conditions shall be performed and observed before any lot may be conveyed other than by mortgage deed.

SECTION 11. Enforcement

The Commission, its agents, officers, and employees shall have authority to enter upon privately owned land for the purpose of performing their duties under this bylaw and may make or cause to be made such examinations, surveys or sampling as the Commission deems necessary.

The Commission shall have authority to enforce this bylaw, its regulations, and permits issued thereunder by violation notices, administrative orders, and civil and criminal court actions.

Upon request of the Commission, the Board of Selectmen and Town Counsel shall take legal action for enforcement under civil law. Upon request of the Commission the Chief of Police shall take legal action for enforcement under criminal law.

Municipal boards and officers, including any police officer or other officer having police powers, shall have authority to assist the Commission in enforcement.

Any person who violates any provision of this bylaw, regulations thereunder, or permits issued thereunder, shall be punished by a fine of not more than \$300.00. Each day or portion thereof during which a violation continues shall constitute a separate offense, and each provision of the bylaw, regulations, or permit violated shall constitute a separate offense.

In the alternative to criminal prosecution the Commission may elect to utilize the non-criminal disposition procedure set forth in G.L. c.40, Sec. 21D.

SECTION 12. Burden of Proof

The applicant for a permit shall have the burden of proving by a preponderance of the credible evidence that the work proposed in the application will not have unacceptable significant or cumulative effect upon the wetland values protected by this bylaw. Failure to provide adequate evidence to the Commission supporting this burden shall be sufficient cause for the Commission to deny a permit or grant a permit with conditions.

SECTION 13. Relation to Wetlands Protection Act

This bylaw is adopted under the Home Rule Amendment of the Massachusetts Constitution and the Home Rule statutes, independent of the Wetlands Protection Act., G.L. C. 131, Sec. 40, and regulations thereunder.

SECTION 14. Severability

The invalidity of any section or provision of this bylaw shall not invalidate any other section or provision thereof, nor shall it invalidate any permit or determination which previously has been issued.

ARTICLE 33. VOTED to accept the proposed amendment of the "Zoning By-law of the Town of Easton" by:

In Section VII, OFF-STREET PARKING & LOADING REGULATIONS, add a new sub-section 8-10, to read as follows:

8-10. FIRE LANES:

1. In districts "B" and "I," for non-residential uses, fire lanes shall be provided as follows:
 - a. From the primary entrance of each unit to the travel way, there

shall be a 10 foot wide fire lane. From all other entrances and exits to the travel way, there shall be a 6 foot wide fire lane.

- b. In the case of shopping centers, restaurants, theaters, and similar locations, instead of the provisions of "a" above, the fire chief may determine to establish a general fire lane of not less than 12 feet in width extending around as much of the perimeter of the building as deemed necessary.

2. In district "B" for multiple family dwelling units, fire lanes shall be provided as follows:

- a. From each entrance to the travel way, there shall be a 6 foot wide fire lane.

UNANIMOUS VOTE.

ARTICLE 34. VOTED to grant a right of way to Plot U4, Lot 50, owned by Joseph P. and Felicity B. Kagan, currently landlocked, and consisting of 17.9 acres, to extend from Plot U4, Lot 50 to Miller Road and adjacent to Plot U4, Lot 59. The right of way requested measures 48 feet in length and 40 feet in width and passes through a parcel of land Plot U4, Lot 60, consisting of 4500 square feet, presently owned by the Town of Easton.

The right of way in the deed to Plot U4, Lot 50 cannot be determined due to the loss of physical markers and due to the development off Dickerman Road.

The purpose of such request is for the easement to access and egress over said parcel for all purposes for which a single family residence uses, including but not limited to, vehicles and pedestrian traffic, with the right to maintain said easement from time to time for said access and egress.

ARTICLE 35. VOTED to authorize the Board of Selectmen to convey for a sum of \$1.00 (one dollar) to the Easton Children's Museum, a non-profit organization, the property and buildings thereon located on Sullivan Avenue, also shown on Assessors Plan U16, Plot 141, for the purpose of operating a Children's Museum designed to educate the children of Easton and the vicinity in the natural and social sciences, and for that purpose maintain a museum and/or community resource center, providing lectures, programs, and other activities. Said Selectmen are further authorized to enter into purchase and sale and other agreements necessary to carry out the sale and to effectuate the purpose of this Article. In return, the Easton Children's Museum agrees to donate 10% of all collected admission fees annually until a total donation of \$100,000. has been reached. In the event that said property is not utilized by the Easton Children's Museum for the stated purposes, the property will revert back to the Town of Easton.

YES 417. NO 146.

ARTICLE 36. VOTED to authorize and empower the Easton School Committee to enter into agreements and do everything necessary and desirable for the

erection of a 6500 square foot building as an addition to the Oliver Ames High School to be received and accepted by the Town as a gratuitous gift for the Special Needs Parents Advisory Council of Easton, Inc., a Massachusetts Charitable Corporation.

BALLOT QUESTIONS

QUESTION 1. PROPOSED AMENDMENT TO THE CONSTITUTION

Do you approve of the adoption of an amendment to the Constitution summarized below, which was approved by the General Court in joint sessions of the House of Representatives and the Senate on June 27, 1984 by a vote of 120-67, and on April 30, 1986 by a vote of 123-69? YES NO

SUMMARY

The proposed constitutional amendment would allow the legislature to prohibit

or regulate abortions to the extent permitted by the United States Constitution. It would also provide that the state constitution does not require public or private funding of abortions, or the provision of services or facilities for performing abortions, beyond what is required by the United States Constitution. The provisions of this amendment would not apply to abortions required to prevent the death of the mother.

QUESTION 2. PROPOSED AMENDMENT TO THE CONSTITUTION

Do you approve of the adoption of an amendment to the Constitution summarized below, which was approved by the General Court in joint sessions of the House of Representatives and the Senate on December 12, 1984 by a vote of 108-79, and on April 16, 1986 by a vote of 107-87? YES NO

SUMMARY

The proposed constitutional amendment would allow the expenditure of public funds for private schools and private school students.

It would remove primary and secondary schools from the list of non-public institutions barred from receiving public aid and would allow public money, property, or loans of credit to be used for funding, maintaining, or aiding those schools. The proposed amendment would also allow public financial aid, materials, or services to be provided to a non-public school student requesting such aid, but only if that school does not discriminate in its entrance requirements on the basis of race, color, national origin, religious belief, sex, or physical handicap. The state legislature would have the power to impose limits on aid, materials, or services provided to students.

QUESTION 3. LAW PROPOSED BY INITIATIVE PETITION

Do you approve of a law summarized below, which was disapproved by the House of Representatives on May 6, 1986, by a vote of 49-93, and on which no vote was taken by the Senate before May 7, 1986? YES NO

SUMMARY

The proposed law would reduce and then repeal the 7½% surtax on Massachusetts state income taxes and would limit state tax revenue growth to the level of growth in total wages and salaries of the citizens of the state.

It would set the rate of the surtax on Massachusetts state income taxes at 3% for tax years beginning during 1986, and it would repeal the surtax for tax years beginning on or after January 1, 1987.

The allowable state tax revenues for any fiscal year are limited to the allowable state tax revenues for the prior fiscal year as increased by the average rate of growth of Massachusetts wages and salaries for the three immediately preceding calendar years. For purposes of calculating the proposed limit for fiscal year 1987, allowable state tax revenues for fiscal 1986 are the net tax revenues for

that fiscal year, but excluding revenues derived from the surtax on state personal income tax. Further, if in any fiscal year the calculation of the limit results in allowable state tax revenues less than the amount of allowable state tax revenues for the prior year, then allowable state tax revenues for that fiscal year shall be equal to the allowable state tax revenues for the prior year. The revenues limited by this law would not include non-tax revenues such as federal reimbursements, tuitions, fees and earnings on investments.

The amount of allowable state tax revenues for any fiscal year would have to be reduced if a new state law were enacted allowing local governments to impose new or increased taxes or excises. The reduction would be equal to the amount of revenue derived from the new tax or increase. The reduction in state tax revenues would first take effect in the fiscal year following the enactment of the new law authorizing new local taxes or increases.

If state tax revenues exceed the limit imposed by the proposed law, as determined by the State Auditor, a tax credit would have to be granted equal to the total amount of excess tax revenue. The credit would be applied to the then current personal income tax liability of all taxpayers in proportion to their personal income tax liability in the preceding year.

The provisions of this Act could be enforced in court by a group of taxpayers.

QUESTION 4. LAW PROPOSED BY INITIATIVE PETITION

Do you approve of a law summarized below, which was approved by the House of Representatives on May 5, 1986, by a vote of 145-0, and on which no vote was taken by the Senate before May 7, 1986? YES NO

SUMMARY

The proposed law would require the state Department of Environmental Quality Engineering (DEQE) to search for sites in the Commonwealth where oil or hazardous materials have been disposed of and to take all steps necessary to clean up those sites within specified time limits. Provisions are made for informing the public about sites in their communities.

Beginning on January 15, 1987, DEQE would be required to publish lists every three months of all sites where it has confirmed that uncontrolled oil or hazardous materials have been disposed of and locations to be investigated as possible disposal sites. The lists would describe what actions have been taken at each site or location. DEQE would be required to list, to the extent that it has identified, at least 400 possible disposal sites by January 15, 1987, 600 additional locations by January 15, 1988, and 1,000 additional locations in each subsequent year.

Within one year after a location is listed as a possible disposal site, DEQE would be required to determine if further investigation is warranted. If so, within two years after the listing, DEQE must confirm whether the location is a disposal site, and whether it poses an imminent or substantial hazard to health, safety, public welfare or the environment.

For sites found to pose a substantial hazard, DEQE would be required, within the next two years, to ensure that those hazards are eliminated and to develop a plan to eliminate permanently future risks from those sites. Imminent hazards would have to be eliminated immediately. For sites found not to pose any substantial hazards, DEQE must, within seven years after the listing, ensure that the full extent of contamination is evaluated and that a plan to eliminate permanently future risks is developed.

The proposed law would require DEQE to provide public notice and encourage public participation. Within 30 days after completing a site investigation, DEQE would have to inform the public through local newspapers of the results of that investigation and of the rights of local citizens under the state law. If ten citizens of a town potentially affected by a site submit a request, DEQE would be required to develop a plan for involving the public in its clean-up decisions and present that plan at a public meeting. The chief municipal officer of a city or town in which a disposal site is located could appoint individual (s) to inspect the site on behalf of the community.

Massachusetts residents could bring lawsuits to enforce the provisions of the proposed law or to lessen a hazard related to oil or hazardous materials. If such a lawsuit is brought, a court could award costs, including reasonable fees for attorneys and expert witnesses.

QUESTION 5. REFERENDUM ON AN EXISTING LAW

Do you approve of a law summarized below, which was approved by the House of Representatives on October 17, 1985, by a vote of 77-62, and which was approved by the Senate on October 17, 1985? YES NO

SUMMARY

The law requires all drivers and passengers to wear properly adjusted and fastened safety belts while traveling in motor vehicles on public ways. It does not apply to: children under five years old who are required by another law to wear safety belts or be restrained in safety car seats; passengers in vehicles where all safety belts are being used by others; passengers in buses; persons riding in vehicles built before July 1, 1966, or in which safety belts were not installed as original equipment; or persons who are certified by a physician to be physically unable to use safety belts. The law also does not apply to police officers, rural mail carriers, or drivers or passengers of other vehicles that stop frequently and travel at speeds not exceeding 15 miles per hour between stops.

Drivers or passengers sixteen years or older who do not wear safety belts are subject to a \$15.00 fine. The driver of a vehicle is also subject to a \$15.00 fine for each passenger under sixteen who does not wear a safety belt. This law, however,

can be enforced only if the driver is stopped for a violation of another motor vehicle law. Safety belt violations will not result in surcharges on motor vehicle insurance premiums. The law also requires that when the Commissioner of Insurance sets motor vehicle insurance rates, the rates must reflect any savings attributable to increased use of safety belts.

The law also requires that all motor vehicles manufactured after September 1, 1989, that are sold or registered in Massachusetts be equipped with crash protection devices, as specified by federal regulations. Any manufacturer who sells or delivers motor vehicles that are not equipped with such safety devices will be subject to a fine of not more than \$100 for each sale or delivery. This law is not intended to eliminate the federal requirements for passive crash protection devices in motor vehicles.

The law also provides that a non-binding question, unlike this binding referendum, shall be placed on the 1986 general election ballot asking whether the voters approve of the law.

QUESTION 6. LAW PROPOSED BY INITIATIVE PETITION

Do you approve of a law summarized below, which was disapproved by the House of Representatives on May 6, 1986, by a vote of 56-93, and on which no vote was taken by the Senate before May 7, 1986? YES NO

SUMMARY

The proposed law would provide a system of voter registration by mail applicable to all qualified voters and would eliminate statutory provisions permitting certain persons to vote only for presidential electors.

Under this proposed law, the State Secretary would be required to prepare blank forms for affidavits of registration. The Secretary and local boards of registrars would be required to make such forms available to any person eligible to vote in whatever quantity the person requests and to transmit such forms, upon written request, to any person claiming to be qualified to vote. Registrars would also be required to make these forms available at all post offices and at other places within their municipalities. The Secretary would be required to establish a reasonable fee for providing more than 50 forms and to prepare instructions to accompany the forms.

A person seeking to register to vote would be required to complete the affidavit of registration and sign it under oath in the presence of a witness who is at least eighteen years old. The witness would be required to certify that the affidavit was signed in his presence and to date the affidavit.

A completed affidavit of registration could be either delivered or mailed to the appropriate registrar's office. If, from the facts set forth in the affidavit, it appears that the person is qualified to vote, the registrars would be required to add the person's name to the list of registered voters and to so notify the person by first-class, non-forwardable mail, unless the person's name already appears on

the local list of residents at the same address. The cost of mailing such notices would be assumed by the Commonwealth, subject to appropriation. If in any year the General Court fails to appropriate funds for that purpose, such notices would not have to be sent. If such a notice is returned undelivered, the city or town clerk would be required to instruct election officials to challenge the person's right to vote at the next election in which he attempts to vote.

The proposed law would also impose criminal penalties of imprisonment for up to two years or a fine up to \$2,000. for knowingly or willfully making a false affidavit, taking a false oath, or signing a false certificate relative to the qualifications or registration of any person to vote.

QUESTION 7. THIS QUESTION IS NONBINDING

Shall the Commonwealth of Massachusetts urge the United States Congress to enact a national health program which: provides high quality comprehensive personal health care including preventive, curative and occupational health services; is universal in coverage, community controlled, rationally organized, equitably financed, with no out-of-pocket charges, is sensitive to the particular health needs of all, and is efficient in containing its costs; and whose yearly expenditure does not exceed the proportion of the Gross National Product spent on health care in the immediately preceding fiscal year? YES NO

QUESTION 8. THIS QUESTION IS NONBINDING

Shall the Commonwealth of Massachusetts urge the President of the United States and the United States Congress to enact a national acid rain control program which would require a fifty percent reduction in total national sulfur dioxide emissions by the year nineteen hundred and ninety-five and which would allocate the required reductions in sulfur dioxide emissions, and the costs of achieving those reductions, equitably among the states? YES NO

Hereof fail not and make return on this warrant with your doings thereon at the time and place of said meeting.

REPORT OF THE TOWN ACCOUNTANT

To the Board of Selectmen:

During the past year we have expanded the use of the computer. All payroll and accounting functions are now being processed by our in-house computer.

We are continuing the automation of real estate and motor vehicle excise taxes and will have them in place before year end.

This report also includes the Balance Sheet for the Town of Easton as of June 30, 1986.

ANNUAL TOWN MEETING WARRANT

TOWN OF EASTON

BUDGET NOTES

This budget is submitted based on fiscal projections available at the time of printing. If additional funds become available, alternate recommendations may be presented by the Board of Selectmen and Finance Committee at Town Meeting.

1. Budget totals reflect only those budgets that have received a recommendation. Any blank spaces reflect budgets that had not been voted upon at the time of printing.
2. Large differences between last year's authorized budget and this year's request in the Collector, Treasurer and Town Clerk budgets is the result of the reorganization of those departments as the result of the new separate office of Collector/Treasurer.
3. The entire Water Division Budget, a portion of debt service, a portion of unclassified and Department of Public Works are paid for from Water Revenue and not from the tax levy.

Submitted by Board of Selectmen

ARTICLE 21. To see if the Town will vote to repeal Article 5 of the Town By-laws in its entirety and substitute therefor the following new Article 5:

ARTICLE 5 — RECORDS AND REPORTS

Section 1. All reports shall be placed in the hands of the Board of Selectmen for printing and publishing as soon as possible, but no later than the fifteenth day of February of each year.

Section 2. The Board of Selectmen shall annually cause to be printed and made available to the public not later than seven days before the Annual Town Meeting, the reports of the officers of the various Departments and Boards of the Town and a report upon such matters as directed by the Town and these By-laws.

Section 3. Whenever a town way is laid out or altered, a plan thereof shall be made and filed in the Town Clerk's office, with the location thereof, and it shall be the duty of the Town Clerk to keep a book of records for the sole purpose of recording the location of all highways and town ways within the town, with an index thereto.

or take any other action relative thereto.

Submitted by Board of Selectmen

ARTICLE 22. To see if the Town will vote to accept the provisions of Chapter 308 of the Acts of 1985 which amended Chapter 140, Section 147A, of the General Laws which relates to the authorization of cities and towns to assume responsibility and liability for dog licensing, control and regulation, or take any other action in relation thereto.

Submitted by Board of Selectmen

ARTICLE 23. To see if the Town will vote to repeal Section 9 of Article 14 of the Town By-laws and substitute therefor the following new Section 9:

SECTION 9. LONGEVITY

Employees covered by this by-law shall receive annual Longevity payments as follows:

Upon completion of five (5) years of continuous service for the Town — \$100.00.

Upon completion of ten (10) years of continuous service for the Town — \$150.00.

Upon completion of fifteen (15) years of continuous service for the Town — \$200.00.

Upon completion of twenty (20) years of continuous service for the Town — \$250.00.

For each additional five year period beyond twenty (20) years of continuous service an additional \$450.00 added to twenty year amount.

The employee's initial date of full time employment shall be used for computing length of service. Longevity payments shall be payable on the anniversary date of employment.

or take any other action in relation thereto.

Submitted by Personnel Advisory Committee

ARTICLE 24. To see if the Town will vote to appropriate a sum of money for the purposes of paying to non-union personnel longevity payments in accordance with Section 9 of Article 14 of the Town By-laws; and to determine whether the money shall be provided by taxation, by appropriation from

available funds in the treasury, or by borrowing under the provisions of Chapter 44 of the General Laws, or take any other action relative thereto.

Submitted by Personnel Advisory Committee

Submitted by Council on Aging

ARTICLE 26. To see if the Town will vote to expend matching funds transferred from the Council on Aging Gift Account for the purposes of matching any grant award made to the Town of Easton for the purpose of purchasing a shuttle van for the transportation of elderly and handicapped residents funded through the Executive Office of Transportation and Construction UMTA 16(B) (2) Program, and to take any other action in relation thereto.

Submitted by Council on Aging

ARTICLE 27. To see if the Town will vote to authorize the Collector—Treasurer to enter into compensating balance agreements during the fiscal year 1988, as permitted by General Laws Chapter 44, Section 53F or take any other action relative thereto.

Submitted by Collector—Treasurer

ARTICLE 28. To see if the Town will vote to accept the non-binding reports of the Planning and Zoning Board concerning its recommendations in regard to the proposed amendments of the Zoning By Law to be voted on under Article 29, Article 30, Article 31, Article 40, Article 42, Article 44, Article 45, Article 46, Article 47, Article 50, Article 51, Article 52, Article 53, Article 54, Article 64, Article 65 and Article 67, or to take any other action relative thereto. (Vote unereunder is acceptance of written report, but not of recommendations contained therein.)

Submitted by Planning & Zoning Board

ARTICLE 29. To see if the Town will vote to accept the proposed amendment of the "Zoning By Law of the Town of Easton" by:

IN SECTION X, SIGNS, Sub-section 10—4(6) after the word "Easton" insert the following:

except for informational billboards erected by the Town of Easton for the purposes of displaying messages of general information and concern of the public.,

or take any other action relative thereto.

Submitted by Town Administrator

ARTICLE 30. To see if the Town will vote to amend the Easton Zoning Map dated April 9, 1984 (original date of March 7, 1983) by deleting the delineations of the groundwater protection overlay districts and replacing them with new delineations of aquifer protection overlay districts as shown on the map entitled "Aquifer Protection Study, Town of Easton, MA, Aquifer Protection Districts, 1986," or to take any other action relative thereto.

Submitted by Department of Public Works

ARTICLE 31. To see if the Town will vote to repeal Section 5-4 of the Zoning By-Law in its entirety and replace it with a new Section 5-4 as follows:

5-4. AQUIFER PROTECTION DISTRICTS

A. Findings

The Town of Easton finds the following conditions to occur:

1. The groundwater underlying the Town is the sole source of its existing and future drinking water supply.
2. The groundwater aquifers are integrally connected with and flow into the surface waters, lakes, ponds and streams which constitute significant recreational and economic resources used for water related recreation and fishing.
3. Accident spills and discharges of petroleum products and other toxic or hazardous materials and sewage discharge have repeatedly threatened the quality of such groundwater supplies and related water resources throughout Massachusetts, posing potential public health and safety hazards and threatening economic losses to affected communities.

B. Aquifer Protection Districts

Aquifer Protection Districts shall be as delineated on the Zoning Map of the Town of Easton and shall be superimposed over any other district established by this By-Law. They are based upon a 5-foot interval water table map, surficial geologic mapping and groundwater modeling.

C. Prohibited Uses

Within an Aquifer Protection District, the following uses are specifically prohibited:

1. Sanitary landfills
2. Junk yards
3. Municipal sewage treatment facilities with on-site disposal of primary or secondary treated effluent
4. Package sewage treatment plants
5. Car washes
6. Road salt stockpiles not stored in approved structures

7. Dumping of snow from outside the District
8. Dry cleaning establishments
9. Motor vehicle and boat service and repair facilities
10. Metal plating establishments
11. Chemical and bacteriological laboratories
12. Any other use which involves as a principal activity the manufacture, storage, use, transportation or disposal of toxic or hazardous materials, except as allowed by special permit in Section 5-4(F).

D. Density Regulations

Residential dwellings, except those within planned unit developments, shall be permitted only at a density not greater than that allowed in Section 6-3. Residential dwellings within planned unit developments shall be permitted only at a density not greater than one (1) dwelling unit per acre for both the Canoe River and Queset Book zones of contribution, exclusive of wetlands and flood plains as defined in MGL Chapter 131, Section 40, as amended.

E. Special Permit Uses

Within the Aquifer Protection District the following uses shall be allowed only upon receipt of a special permit:

1. Any use involving toxic or hazardous materials in quantities greater than those associated with normal household use.
2. Golf courses, either private or public.
3. Cluster or planned unit developments as defined in Sections 7-4 and 7-5. The requirements of Section 5-4 may be addressed by the Board in the issuance of a special permit in accordance with Section 12-7. An additional special permit for this section shall not be required.

F. Special Permits

1. **Special Permit Granting Authority.** The special permit granting authority (SPGA) under this By-Law shall be the Zoning Board of Appeals. Such special permit shall be granted if the SPGA determines, in conjunction with the other Town agencies indicated in Section 5-4(F)(2) that the intent of this By-Law, as well as its criteria, are met. In making such a determination, the SPGA shall give consideration to the simplicity, reliability and feasibility of the control measures proposed and the degree and threat to water quality which would result if the control measures fail.

2. **Review by other Town agencies.** Upon receipt of the special permit application, the SPGA shall transmit one (1) copy to the Department of Public Works, Water Division and to any other relevant Town agency for their written recommendations. Failure to respond in writing within thirty (30) days shall indicate approval or no desire to comment by said agency. The necessary number of copies of the application shall be furnished by the applicant.

3. Special permit criteria. Special permits under Section 5—4(F)(4) (a) shall be granted only if the SPGA determines, in conjunction with the Department of Public Works, Water Division, that ground water quality resulting from on-site wastewater disposal and other on-site operations will not fall below acceptable standards for drinking water at the downgradient property boundary (a concentration of 5 ppm of nitrate-nitrogen).

4. Submittals. In applying for a special permit required by this section, the applicant shall provide the following information:

(a) A complete list of all chemicals, pesticides, fuels and other potentially toxic or hazardous materials to be manufactured, used or stored on the premises in quantities greater than those associated with normal household use, accompanied by a description of measures proposed to protect all storage containers/facilities from vandalism, corrosion and leakage and to provide for the control of spills.

(b) A description of potentially toxic or hazardous wastes to be generated, indicating storage and disposal methods.

(c) Evidence of approval by the Massachusetts Department of Environmental Quality Engineering (DEQE) of any industrial waste treatment or disposal system or any wastewater treatment system with a capacity of 15,000 gallons per day or more.

(d) Projections of downgradient concentrations of nitrogen and other relevant chemicals at property boundaries and other locations deemed pertinent by the SPGA. Projections shall be based upon appropriate groundwater models and the following information/standards:

i. Nitrogen loading calculations

Wastewater per person: 5 lbs. of nitrogen per year

Persons per dwelling: 3

Lawn fertilizers: 2 lbs. of nitrogen per 1,000 square feet of lawn area per year

Road runoff: 0.19 lbs. of nitrogen per curb mile per day

Background nitrogen concentration: actual field measurements

ii. Groundwater flow and impacts to drinking water supply wells

Identify probably impacted water supply well(s) by constructing flow lines on the Easton Water Table Map (IEP, 1986) down-gradient of the proposed site

Use 15 inches per year for sand and gravel and 7 inches per year for till for areal recharge rates

Determine the value for hydraulic conductivity from the closest downgradient public water supply well in the Easton Aquifer Protection Plan (IEP, 1986)

Determine the saturated thickness of the site as shown on the Saturated Thickness Map (IEP, 1986) supplemented with on-site borings.

G. Design and Operations Guidelines

The following design and operation guidelines shall be observed within the Aquifer Protection Districts.

1. Safeguards. Provisions shall be made to protect against toxic or hazardous material discharge or loss resulting from corrosion, accidental damage, spillage or vandalism through measures such as:

- prohibition of underground fuel storage tanks
- spill control provisions in the vicinity of chemical or fuel delivery points
- secured storage areas for toxic or hazardous materials
- indoor storage provisions for corrodable or dissolvable materials

For operations which allow the evaporation of toxic or hazardous materials into the interiors of any structures, a closed vapor recovery system shall be provided for each structure to prevent discharge of contaminated condensate into the groundwater.

2. Location. Where the premises are partially outside the Aquifer Protection District, potential pollution sources such as on-site waste disposal systems shall be located outside the District to the extent feasible.

3. Disposal. For any toxic or hazardous wastes to be produced in quantities greater than those associated with normal household use, the applicant must demonstrate the availability and feasibility of disposal methods which are in conformance with MGL Chapter 21C, as amended.

4. Drainage. All runoff from impervious surfaces shall be recharged on the site, diverted towards areas covered with vegetation for surface infiltration to the extent possible. Dry wells shall be used only where other methods are not feasible and shall be preceded by oil, grease and sedimentation traps to facilitate removal of contaminants.

H. Violations

Written notice of any violation of this By-Law shall be provided by the Building Inspector to the owner of the premises with said notice specifying the nature of the violation(s) and a schedule of compliance, including cleanup of any spilled materials. This compliance schedule must be reasonable in relation to the public health hazard involved and the difficulty of compliance. In no event shall more than thirty (30) days be allowed for either compliance or finalization of a plan for longer-term compliance.

I. Definition

A toxic or hazardous material shall be defined as any substance or mixture of such physical, chemical or infectious characteristics as to pose a significant, actual or potential hazard to water supplies or other hazard to human health, if such substance or mixture were discharged to land or waters of the Town. Toxic or hazardous materials include, without limitation, the following:

- organic chemicals
- petroleum products
- heavy metals
- radioactive or infectious wastes
- acids and alkalies
- products such as pesticides, herbicides, solvents and thinners

Wastes generated by the following activities, without limitation, are presumed to be toxic or hazardous unless and except to the extent that anyone engaging in such activity can demonstrate the satisfaction of the Board of Health and the Department of Public Works, Water Division:

- airplane, boat and motor vehicle service and repair
- chemical and bacteriological laboratory operation
- cabinet making
- dry cleaning
- electronic circuit assembly
- metal plating, finishing and polishing
- motor and machinery service and assembly
- painting, wood preserving and furniture stripping
- pesticide and herbicide application
- photographic processing
- printing.

or to take any other action relative thereto.

EASTON BOARD OF SELECTMEN

OFFICIAL PROCEDURES TO BE USED AT TOWN MEETING

Approved — Town Meeting — May 1978

1. Main Motions:

Debatable

When a motion has been made, seconded and stated by the Chair, the assembly is not at liberty to consider any other main motion until this motion has been disposed of.

2. Motions to Amend:

Majority Vote Required

Debatable

This motion is to change, add, or omit words in the original main motions.

3. Motion to Amend the Amendment

Majority Vote Required

Debatable

This is a motion to change, add, or omit words in the first amendment.

Method of Vote: The first vote is on changing words of second amendment. If the first vote adopts the change, the second vote is on the first amendment as changed or amended. The third vote is on adopting the main motion as changed or amended.

4. Motion to Commit or Refer:

Majority Vote Required

Debatable, Amendable

When a motion becomes involved through amendments or when it is wise to investigate a question more carefully, it may be moved to commit or refer the motion to a committee for further consideration.

5. Motion to Close Debate Not Debatable

2/3 Vote Required

When debate does not seem to be shedding additional light on a question, you may move to end it by calling the question: "Mr. Moderator, I call the question." You must be recognized by the Chair before making this motion. As soon as this Motion is made, debate ceases and a vote on closing debate is taken. If the motion is carried, a vote is immediately taken on the question under consideration.

6. Motion to Reconsider:

Majority Vote Required

Debatable

This motion must be made the same day as the original motion was carried or defeated, "A vote can be reconsidered only once."

7. Motion to Adjourn:

Majority

Debatable

This motion is always in order except (a) when a speaker has the floor, (b) when a vote is being taken, (c) after it has just been voted down (d) when the

assembly is in the middle of some business which cannot be abruptly stopped. A definite time and place must be set.

MISCELLANEOUS MOTIONS

These motions (or questions) are not necessarily related to the Main Motion and do not fall within the order of precedence. They may be made as appropriate or necessary.

1. Question of Privilege:

A motion unrelated to the business taking place, e.g. "Question of privilege, please! It is too noisy. I request that the Chair ask that all talking be stopped."

2. Point of Information:

Motion used to ask a question or obtain clarification of facts pertaining to the motion at hand. "Point of information, please! What would be the cost to repair this piece of machinery rather than replace it?" There is no vote or debate. The Chair provides the information sought.

3. Point of Order:

This motion is always in order but can be used only to present an objection to some method of parliamentary procedure. "Mr. Moderator, I rise to a point of order!" Then the objection is stated. There is no vote or debate and the Chair immediately rules on the point of order.

4. Point of No Quorum:

This motion requires no second and is not debatable. No other motion may be applied to it. It may not be used to interrupt a speaker. When the point is properly raised, the Moderator must then ascertain whether or not a quorum exists.
